BODY ORIENTED

ART THERAPY

Listening to your body and giving expression to its sensations is the main goal of this sensory artistic experience. Allow yourself to know your memories without words. Then integrate your discovery into daily life. A process to enrich yourself and your life forever.

ART WAYS TRAINING

Experience Art as human development and therapeutic tool and master the art of expressing yourself. Choose themes as

- Allowing Pleasure and Joy
- The Mother
- In The Flow
- Healing Grief
- Anger is Ok
- Heart Thinking
- Self Love
- Free your Inner Child
- Relationships
- Gratitude

Available as one to one coaching, teamwork and private arrangement

SYSTEMIC CONSTELLATIONS

A system is a group of elements in permanent balance. If one element is excluded someone else in the system will compensate this loss. Unconscious imbalance, entanglement and struggles become visible when one looks at one's familiar or collective system. Learning the basic principles of systemic work and representing with a group of participants, brings awareness into unknown issues which can then be regulated. The family constellation is online. Ask for the possibilities.
